no entry

Address (postcode, place, street, house number, block, door number)

Telephone number

Email address

Name of legal representative, if applicable

## Please answer the following questions

Tick as applicable

1. Have you ever had any **SARS-CoV-2 infection** (confirmed by a PCR test), **COVID-19** (confirmed by a PCR test) or **antibodies against the coronavirus** (neutralisation test or correlate to neutralisation test only)?

Yes

No

If yes, when?

2. During the last 7 days, have you been suffering, or are you still suffering, from any **acute disease or infection** (e.g. fever, cough, common cold, sore throat, others)?

Yes

No

If yes, from what?

3. Have you ever had any **allergic shock involving a drop in blood pressure, pronounced respiratory distress or collapse**?

Yes

No

If yes, to what?

4. Have you already been **vaccinated against COVID-19**, have you been **vaccinated against any other disease within the past 4 weeks**, or are you currently undergoing any **allergen-specific immunotherapy/hyposensitization therapy**?

Yes

No

If yes, which and when?

5. Have you ever experienced any **complaints or adverse effects after being vaccinated** in the past, such as thrombosis with thrombocytopenia syndrome (except for minor local reactions such as redness, swelling, pain at the injection site or a touch of fever)?

Yes

No

If yes, after which vaccination and what kind of reactions?

6. Are you **allergic to any medication** or to an **ingredient of the vaccine** (see information leaflet)?

Yes

No

If yes, which?

7. Are you regularly taking any **blood-thinning medication**?

Yes

No

If yes, which?

8. Are you suffering from any **severe or chronic diseases** (e.g. immunodeficiency, cancer, autoimmune disorder, bleeding disorder, chronic inflammatory diseases, capillary leak syndrome)?

Yes

No

If yes, which?

9. Are you currently undergoing any **chemotherapy** and/or **radiotherapy** or are you taking any **immunosuppressive drugs** (e.g. cortisol)?

Yes

No

If yes, which?

10. Are you planning to undergo **surgery**?

Yes

No

If yes, when?

11. Are you **pregnant**?

Yes

No

If yes, how far along are you?

## Informed consent – Vaxzevria (AstraZeneca)

Version 4.2, as at: 04/03/2022

Following vaccination against COVID-19, reactions to the vaccine often occur which usually disappear on their own within a few days. Pressure sensitivity, pain, flushing, itching or bruising may occur very often at the injection site; reddening or swelling may occur often. Moreover, fatigue or general discomfort, chills or feeling shivery, headache, muscle or joint aches, or nausea may occur very often; fever, vomiting or diarrhoea or low blood platelet levels may occur often. Very often means that more than 1 in 10 vaccinated persons are affected; often means that up to 1 in 10 vaccinated persons is affected. Severe allergic reactions may occur. Physical rest is recommended for three days after vaccination, and sports should be abstained from for one week. In very rare cases, capillary leak syndrome was observed after vaccination. Blot clots, often in unusual places (e.g. brain, colon, liver, spleen), were observed very rarely simultaneously with a low blood platelet count, in some cases combined with bleedings, following vaccination with Vaxzevria. This included a number of severe cases of blood clotting in various different or unusual places and excessive coagulation or bleeding in the entire body. Most of these cases occurred within the first three weeks after vaccination, mostly in women below the age of 60. Some cases had a fatal outcome. Go see your doctor immediately if you experience one of the following symptoms within the first three weeks after your vaccination:

- Severe or persistent headaches or blurred vision, disorientation or convulsions (seizures);
- Shortness of breath, chest pain, swollen legs, leg pain or persistent stomach ache;
- Unusual bruising on your skin or round pinpoint spots beyond the vaccination site.

For details, please refer to the information leaflet provided electronically. You may also request a hard copy of the information leaflet. Should you have any further questions, please get in touch with your doctor. In order to access the information leaflet of the COVID-19 vaccine Vaxzevria (AstraZeneca), please scan the QR code (<https://www.basg.gv.at/konsumentinnen/wissenswertes-ueber-arzneimittel/covid-19-impfstoffe>).

With my signature I confirm:

- that I have read and understood the leaflet regarding the vaccine described therein, or that I was otherwise provided with sufficient information about the same. I have been able to obtain information about potential adverse effects and possible arguments why I should not be vaccinated.
- that I am appropriately aware of the benefits and risks of the vaccination and accordingly do not require any further personal consultation,
- that I consent to being vaccinated free of charge, and
- that I am aware that my personal data are going to be processed in the vaccination register in accordance with the Gesundheitstelematikgesetz 2012 (see <https://www.elga.gv.at/datenschutzzerklaerung>).

### Should you have any further questions, please get in touch with your doctor before signing this form.

For underage persons (children under the age of 14) or persons under disability, consent must be obtained from the legal representative (parents, legal guardians or authorised agents) of the person to be vaccinated. Adolescents (mature underage persons who have completed the age of 14) must give consent themselves if they are capable of making decisions.

Date (DD/MM/YYYY)

Signature of the person to be vaccinated or their legal representative

**Important information:** For your own safety, you should stay near the vaccinating doctor for some 20 minutes, on the off chance of any reactions occurring (nausea, collapse, allergic reactions etc.). If you suspect to experience any adverse reactions, please contact your doctor or pharmacist. They are obliged to report any suspected adverse reactions. However, you or members of your family may report adverse reactions as well. More information is available online at <https://www.basg.gv.at/marktbeobachtung/meldewesen/nebenwirkungen>; you can also call 0800 555 621.
